COMPARATIVE PRICES IS ADVERTISING TOPIC

At Meeting of Marion Advertising Club.

The merit, disadvantage, and necessity of using comparative prices in advertising was the principal subject of discussion at the meeting of the Marion Ad Club at the Busy Bee Cafeteria last night. Ernst F. Stuckey, was in charge of the meeting. Cutting of prices on staple groceries below cost for use as "specials" or "leaders" was scolded by Guy H. Hulse, secretary of the Retail Merchants' Bureau, who declared that it bred public distrust and would lead to disaster. Lawrence R. Young was named chairman of the baseball committee. R. T. Lewis, O. H. Boyd and Joe D. Long were named on a committee to assist in directing "Clean-Up" week.

"We can not consider seriously every criticism made regarding advertising," said Mr. Stuckey. "Although I believe in many cases comparative prices are substituted for convincing sales facts, I am convinced that the discreditable use of comparative prices is entirely defensible."

"Readers of ads in Marion," said Mr. McClain, "have all advertisers stirred up. I think that the 'soft pedal' should be applied when using comparative prices and that they should be used conservatively. The personally or convincing power of advertising is determined by the reputation of the house that advertises."

O. H. Boyd will be in charge of the program at the next meeting, April 25.

A Score of Years of Achievement

In April, 1902—twenty
years ago—the doors of
the first J. C. Penney
Company store were
thrown open to the public.

The moment signalized
a march of progress
which has had no equal in
the annals of department
store-keeping.

From that one store
has grown 312 stores; a
total business the first
year of approximately
\$25,000 has expanded to
\$40,041,928 last year.

This wonderful growth,
born of keeping faith with
a generous public, is but a
forerunner of greater
achievements to come.

In the coming Summer
and Fall we shall add
more than 50 new stores
to our ever-lengthening
chain.

To be successful, a repair man has to know just how to handle the plates that hold the active material that keeps life in the battery. He has to know how to take care of the insulators that keep the plates apart. He has to know when it is cheaper for you to buy a new battery than to have the old one repaired.

Miss Dorothy Whaley, of Crawford, was named president of the local league of women voters at a meeting held last Saturday afternoon, in place of Miss Grace Brinkerhoff, of Upper Sandusky, who resigned. Mrs. A. E. Walton, was named secretary in place of Mrs. Leofie Merrill, also resigned. Mrs. Charles N. Johnston was named second vice president and Miss Anna Eisinger was selected chairman of the program committee.

Bring your battery in to Headquarters—no matter whether it's a Willard or not. We'll tell you what it needs, if anything, how much the cost will be—and whether repairs will pay or not.

To be successful, a repair man has to know just how to handle the plates that hold the active material that keeps life in the battery. He has to know how to take care of the insulators that keep the plates apart. He has to know when it is cheaper for you to buy a new battery than to have the old one repaired.

Bring your battery in to Headquarters—no matter whether it's a Willard or not. We'll tell you what it needs, if anything, how much the cost will be—and whether repairs will pay or not.

Repairing batteries may look easy—but it isn't!

A Matter of Judgment

The world judges
you by your
appearanceCan you afford
to wear cheap
Clothes?

Your Easter Suit

HOW WILL IT LOOK?
3 MONTHS FROM NOW?

IT'S purely a matter of personal judgment, in selecting your Easter Suit. In clothes as in everything else there is a direct relation between price and quality. It really isn't so much a matter of whether you can afford to buy a good suit—it's far more important for you to consider the following question:

Can You Afford to Wear
Cheap Clothes?

MANY a man buys a low priced car and says: "When she starts to rattle and show signs of wear, I'll trade her in for a new one—and a better one." But when it comes to clothes there is very little demand for a "used suit." When you buy it, you buy it "for keeps." It has no "trade in" value.

A Hart Schaffner & Marx Suit or
one from Fashion Park

will make you look your best and keep you looking that way through months and months of service.

RUSSIA RAISES IRE OF FRANCE

Continued from Page One.

Five convening powers have one delegate each and the other nations represented are Germany, Russia, Norway, Servia, Holland, Latvia and Switzerland.

A subcommittee of the transportation committee also was organized.

Take Active Part.

The Russians are anxious to get everything possible out of the conference. They are getting in as many committees as possible and are taking an active part in the discussion of every topic that arises.

It is believed that the Russians would be pleased to antagonize the French to such a degree that the latter would retire from the conference. This would not only give Moscow sweet revenge for repeated French turn-downs to Bolshevik offers of rapprochement but also would isolate France as the one power that is blocking, directly or indirectly, the conference.

It is generally reported that the reparations commission will defer Germany's negative indemnity note to the conference until after the investigation is completed. Such action virtually would break up the conference as virtually all the members of the conference council are here as delegates and both sides could not be in session simultaneously.

Counter-Proposals Due.

Genoa, April 12.—The Russian delegation to the international economic conference will submit counter-proposals in reply to the Russian reconstruction plan of the allied experts now under consideration by the sub-committee on Russia, according to a report current in Russian circles this afternoon.

The Russians admitted that they had brought their own set of suggestions from Moscow and that they would attempt to have them considered by the conference.

When the allied proposals were given over to the Russians sub-committee, M. Barthou, head of the French delegation, said that they were not final but were subject to revision.

Russians To Stick.

Genoa, April 12.—Despite their belligerent and pugnacious attitude that has already flung defiance in the face of three nations—France, Roumania and Japan—the Russian delegates in the international economic conference have no intention of bolting. On the contrary, it was made evident today that they are determined to hold on tenaciously to their seats at the green table with the other powers.

ISALY COMPANY HAS SHOP NIGHT

Volley-ball, indoor baseball and skating featured the Shop Night entertainment Tuesday evening by the Italy Dairy company forces in the Y. M. C. A. building. Following a game of indoor baseball between the employees of the plant and office a volleyball tournament was enjoyed. The office forces defeated the employees of the plant and the members of the team from the butter department lost to the team from the milk department. The office forces won the game for the championship of the evening. Those playing on the champion team were Charles Italy, Marion Hincklin, William Woods, Miss Grace Haden, Miss Kate Hart and Miss Anna Weichold.

Mrs. E. E. Rish won the honors in an egg-and-spoon race, after which the remainder of the evening was passed in skating to music furnished by Hughes Brothers orchestra. Refreshments were served and the company also treated the members of the boys department. The gymnasium was attractively decorated with posters and pennants. The program was staged under the supervision of Charles Italy, Marion Hincklin and George D. Hildebrandt. Plans were made for a skating party to be held by the employees next week.

Seeks Searching Probe.

Congressman Woodruff told the house that he believes the information placed in his hands by Bratton warrants a searching congressional investigation and he has offered a resolution providing for such an inquiry.

Steato claims that although the audit of the war department, showing overpayments of \$14,660,000 on aeronautical contracts, has been turned over to the department of justice, with recommendations that proceedings be instituted. In the courts, no suits have been filed.

Steato says that his investigation of the Glen L. Martin company of Cleveland showed that the company had made a profit of about \$400,000 on a contract involving approximately \$1,180,000 and that the company had been paid \$35,000 for the same aircraft which another company was building for \$18,000 each.

Go Through Plant.

About sixty-five members of the boys' division of the Y. M. C. A. enjoyed an interesting trip through the Pollock Steel plant Tuesday afternoon under the direction of G. W. Jakeway. The boys were accompanied by Roy A. Wagner, secretary of the boys' division.

Gas Pressure Low.

Because of trouble at the pumping plant southwest of Marion today it was necessary to shut down the machinery for a time and the gas pressure was very low. The shutdown was made necessary just when the heavy load at noon was on.
